Purpose of the meeting:

This was an informational meeting to update Members of DEC and EFC on the plans of the Village going forward,

Current Upgrade information:

The Village of Lyons Falls has decided to go forward with an amended Wastewater treatment facility

upgrade plan with Barton and Loguidice. The previous plan was too costly and there were some design concerns. There is a potential savings of $500,000 for the Village with the new plan.

The new plan will have to be approved by DEC and EFC.

Current financing status: The Village will pay back approximately $35,028.29 for a loan and $101,156 already disbursed from the WIIA grant. (The exact figure will be researched).

The Village will reapply for several grants using the anticipated new project costs.

The WQIP will stay as it is.

The bond resolution for 1.95 million will be adequate for the proposed plan.

Discussion: This is an unprecedented situation, so several organizations will be doing research.

Shannon McClew has requested a letter with a better understanding of the proposed timeline and more realistic schedule. B and L has offered to compose the letter for the Village and submit the plans they have compiled.

Other/wrap up: The Village appreciates the patience that the DEC has shown with Consent order extensions.

The meeting closed at 3:36pm.
